Safe Technology/Digital Citizenship - Net Positive training completed in all grades

Goals & Funding for 2022-2023 - \$87, 851.51

80% of Kindergarten through 6th-Grade students will make typical or above progress on the Acadience Pathways of Progress End of the Year assessment.

Students in 3rd through 6th-Grade will increase their math scores by 3% as measured by the end of year RISE test data.

Students in 4th through 6th-Grade will increase their science scores by 5% as measured by the end of year RISE test data.

Para-educators will provide remediation and extensions for our Kindergarten through 6th-grade students. Additional funds will be used to support Goals 1 and 2 in the following ways (depending on need):

- Increase the number of para-educators for remediation and extension.
- Purchase curriculum, support materials/supplies, manipulatives for Reading, Math, or Science.
- Cover costs of reading, math, and science computer software programs
- Purchase headphones for computer software programs.

Discussion about Goals:

The council agrees that Reading, Math and Science should continue to be our focus. They agree that goals should be set for Acadience and RISE for next year. We would like to see all grade levels reach our goals. We almost did that last year, but we have a few grade levels that did not make the goals. Kim will present the Middle of the Year Acadience data at next month's meeting.

2023-2024 Trustland Plan Discussion

Reading Plus License - expires Sept. 2024

iXL License - expires Oct. 2024

InfiniD License - expires March 2024

Discussion about Funding:

LETRS training for upper grades – Should the council use Trustland funding for LETRS training? Is it possible? Are upper grade teachers interested in LETRS training?

Do we know what teachers need? Can we ask them? Teacher grants have been part of the Trustland funding in years past. Should the council implement a grant system for teachers?

In the past, Kim has asked teachers for their feedback on how the council should spend the Trustland funds. Every year the teachers have responded that they want/need Instructional Assistants. Kim will speak with the teachers and report back to the council next month.

Para-Educator Discussion:

Are para-educators helping? Are they trained? How do we know they are effective? What progress is being made with para-educators? What outcomes do we expect?

Discussed the responsibilities of the para-educators, researched based interventions that the paras teach, training they receive, and the data they collect and how that is given to teachers. Kim will invite Megan Clark to present to the council next month, since she is the para-educator's supervisor and over interventions.

Other?

Nothing noted.

Next Month's Meeting: February 3rd @ 7:00am via Zoom
